**ATTACHEMENT TO NOTICE OF ALLOWANCE**

Applicant's amendment response received on 10/1/09, and the supplemental amendment and response received on 2/17/10, have both been entered. Claims 2-3, 6-11, 20, 22-23, 26-31, 40, 43-55, 58, and 60-88 have been canceled, and new claims 92-93 (referred to in error by the 10/1/09 amendment as new claims 63-64) have been added. Claims 1, 4-5, 12-19, 21, 24-25, 32-39, 41-42, 56-57, 59, and 89-93 are currently pending in the instant application.

Applicant's amendment to the specification on page 37 to insert essential material present in the claims which was improperly incorporated by reference to WO 96/06097 and WO 97/31898 in the original specification is acknowledged. The amendment to the specification is in compliance with 37 CFR 1.57(f).

Applicant's amendments to the claims have overcome rejections under 35 U.S.C. 112, second paragraph. Applicant's amendments to the claims and to the specification have also overcome the rejection of the claims under 35 U.S.C. 112, first paragraph, for lack of written description/new matter.

The rejection of the pending claims under 35 U.S.C. 103(a) as being unpatentable over Capon et al. in view of Blau., Ramsfjell et al., and Holt et al. is withdrawn in view of applicant's arguments. In particular, applicant's argument that Capon et al. discloses over 500 different chimeric receptors and numerous target host cells without providing any particular suggestion or

motivation to combine an FKBP inducer domain with TPOR, or to express this particular chimeric receptor in hematopoietic stem cells, and the argument that Ramsfjell et al. discloses that TPO, the ligand for TPOR, when administered alone, in the absence of other cytokines, induces little or no growth of primary mouse hematopoietic stem cells, has been found persuasive in overcoming the rejection of record.

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mary Webster on 2/23/10.

The application has been amended as follows:

1. Claim 56 has been rewritten as follows:

Claim 56. A method for treating or preventing a hemopoietic disease or pathological condition in a mammal, comprising introducing into the mammal a subpopulation of cells produced by the method of either Claim 4 or Claim 24.

Claims 1, 4-5, 12-19, 21, 24-25, 32-39, 41-42, 56-57, 59, and 89-93 are considered free of the prior art of record and allowable.

Any inquiry concerning this communication from the examiner should be directed to Anne Marie S. Wehbé, Ph.D., whose telephone number is (571) 272-0737. If the examiner is not available, the examiner's supervisor, Joseph Woitach, can be reached at (571) 272-0739. For all official communications, the technology center fax number is (571) 273-8300.
